- Euro School
  SEE
  Completed in 2020

About Me

I like to think of myself as an innovator. I've loved the idea of creating and utilizing new ideas since my early childhood. In addition, technology has been something that has always fascinated me. The idea of having the power to make something that can be appreciated by numerous amount of people fascinates me. Along with my love for photography/videography and making music, front-end development has recently increased my interest.

Relevant Courseworks
